Atakan Erdogan

Trainee Data Scientist & Analyst | Student | healthcare from data
perspective
Germany

Summary

As a candidate data scientist, who has experience with medicine
- left medical school to study and work on something analytical,
nowadays completing internships at several companies, completing
daily tasks and building different projects. As a newbie in the data
field still in the training phase and continous learning, I like NLP,
LLMs, and deep learning and planning to combine my medical
knowledge with data science in order to make data driven decisions
in science and healthcare industry.

Experience

ELEVATE LABS
Data Analyst Intern
April 2025 - Present (1 month)

Data Analyst Intern: cleaning, processing and visualizing data.

Oeson™
Trainee/Intern
November 2024 - Present (6 months)
North Rhine-Westphalia, Germany

My first experience in the data and business industry, gained knowledge and
hands on experience on data analysis by building different projects, creating
presentations to communicate the results using data storytelling.

Edureka
Trainee/Intern
January 2025 - Present (4 months)

Data Science and Machine Learning Internship Program of Edureka, getting
training and building different projects

RWTH Aachen University
Student
September 2022 - Present (2 years 8 months)

Aachen, North Rhine-Westphalia, Germany

Computer Engineering Bachelor's

University of Cologne
2 years 6 months

Medical Student
September 2020 - September 2022 (2 years 1 month)
Cologne, North Rhine-Westphalia, Germany

Studienstart International
April 2020 - September 2020 (6 months)
Cologne, North Rhine-Westphalia, Germany

Medical School Prep Semester for International Students: (SSI)

- Intercultural Awareness and Sensitivity

- Presentation skills

- Medical Terminology and German for Medicine

- Biology and Chemistry for Medicine

Özel Ümit Hastaneleri
Medical Intern
March 2021 - March 2021 (1 month)
Eskişehir, Türkiye

I actively participated in doctor visits, consultations, supporting the General Surgery and Cardiovascular Surgery Departments. This hands-on experience allowed me to develop a deep understanding of hospital operations and patient care practices and I also had the chance to deal with patient data at the nurse station.

Bezmialem Vakif University
1 year 1 month

Medical Student
September 2019 - September 2020 (1 year 1 month)
Istanbul, Türkiye

Intern
January 2020 - February 2020 (2 months)
Beykoz, Istanbul, Türkiye

• Observed molecular biology methods and animal experiments at Aly Lab, in Beykoz Institute of Life Sciences and Biotechnology, gaining knowledge on malaria life cycle.

• Gained hands-on experience in lab work and learned about biological observation and data gathering techniques.
• Developed skills in biological research, data analysis, and lab procedures.
